### 1. Rationale

Each child is a precious and sacred gift from God created as an individual with their own unique talents and abilities. Leschenault Catholic Primary School seeks to create environments that nurture this individuality while enhancing learning and empowering young people to live the Catholic faith in the spirit of Jesus Christ.

Childhood as “a time to be, to seek and make meaning of the world” and recognise that quality service provision in the early years provides an opportunity to foster the development of the whole child (Early Childhood Australia, 2009). Leschenault Catholic Primary School uses the Kathy Walker Learning Approach which is developed and designed to engage children in authentic and meaningful ways so that children would enjoy their learning. It uses play-based and personalised learning theories as its basis and retains explicit instruction of literacy and numeracy.

Leschenault Catholic Primary celebrates parents as children’s first and most influential educators and recognises that strong, collaborative partnerships between parents and educators are essential. Educators and educational leaders work collaboratively with parents to foster children’s spiritual, physical, cognitive, social and emotional learning and growth. Leschenault Catholic Primary School assists parents who wish to develop their children as Christian men and women. Also they support parishes with their responsibility of supporting parents as the first educators of their child” (Mandate, para 6)..
